**Subject:** RE: Input for U&O 2016 accomplishments

Here you go Gail, thanks for the reminder!

- Continued to collaborate with the Ute Indian Tribe on the development of a reservation-specific federal implementation plan (FIP) to reduce emissions from existing oil and natural gas sources. The proposed FIP, which is currently in OMB for review, is anticipated to

## Ex. 5 - Deliberative Process

have also collaborated with Utah DEQ on developing a comprehensive 2014 emissions inventory that will be considered in developing the final rulemaking.

**Subject:** Input for U&O 2016 accomplishments

Hi Jody – Please give me a couple sentences about U&O accomplishments by **COB Monday, 8/22**. Below is what we used for the 2015 OPRA Organizational Assessment. We just need to update this for 2016.

- Continued work with the Ute Tribe regarding the potential for a Uintah and Ouray Reservation specific federal implementation plan to reduce emissions from existing oil and gas sources. Working collaboratively with the Utah DEQ, developed an emissions inventory process for sources to report improved emissions data for use in air quality planning. Met with sources and other stakeholders to seek their thoughts on a potential federal plan.

We would like to discuss some results this year like the reductions that are anticipated from the proposed FIP. Let me know if you have questions.

Thanks!

Gail x6281
